EuroVelo publication series
Dear EuroVelo newsletter subscribers,

Summer months are always the busiest ones for cycling tourism. The same goes for the EuroVelo team. The launch of our search engine for bookable offers and the translation to French & German of the EuroVelo 13 website kept us pretty busy. Also outside our offices in Brussels our partners did great work: the EuroVelo 17 just experienced its first successful summer, the partners of the Iron Curtain Trail project met in Liepāja, the SilverCyclists project published a new survey and Hungary’s new commissioner for cycling makes the development of EuroVelo in Hungary a top priority.

Adam Bodor
EuroVelo director
