Who is Europafietsers

- “Europafietsers” (Europe Cyclists) is a Dutch non-profit organization of volunteers only.
- We want to inspire people of all ages to undertake cycling holidays in Europe.
- We have over 30 years of experience in drafting cycle routes.
- This experience comes into life in our Long Distance Cycle Guides that describe carefully designed routes on quiet roads.
• Previous page showed all our routes.

• We also provide information about other cycling guides and interesting routes (Dutch, but from other European publishers as well).

• Our guides cover about 28,000 km (including already some parts of EuroVelo), and we provide information on another 46,000 kms.

• For map of all routes: see our flyer or our website!

• Our Cycle Guides (in Dutch) are famous in The Netherlands, we sell 7-9000 of them yearly.

• **EuroVelo could be interested in the translation of some guides?**

• For all our described routes we also provide **gps-tracks**.

• Our **website** is an important portal for anyone who wants to undertake a cycling holiday. We had 80.000 unique visitors in the first quarter of 2015.
• We have over 2000 **paying supporters** in The Netherlands and some in Belgium.

• Amongst our supporters we count some **100 active volunteers**, who help spreading the message on fairs or by giving talks. They also help us to keep our **information up to date** with feedback, or by checking new or existing routes carefully.
• Within our organization and experience **we want to support the EuroVelo network**, by helping to **complete, check or improve** provisional routes,
• by **providing information** around those routes,
• and eventually make (downloadable) **brochures or complete cycle guides**.
• We could also generate **additional traffic on EuroVelo-sites** by links at relevant places on our website.
In order to send our volunteers on the road, we hope to give them all available information on the parts of EuroVelo we will try to check and describe.

Therefore we seek the cooperation with all people in the EuroVelo organization, especially of the coordinators in the various countries and of those responsible for the itineraries.
We count on your cooperation to let us help you to improve the EuroVelo network!
